

During the busy summer months, it can be difficult to keep up with the needs of your lawn and landscaping. Let the experts at B & K Landscaping take care of them for you! Plus, we have a variety of other services to get your home or business looking its best.

Are you looking to add a fence to your property? Whether you want a full- or semi-private fence, B & K has high-quality, affordable options. Choose from wood, vinyl or chain link. Contact us to get on our installation list!

Our team recently completed a great landscaping project! We installed step units with steppingstones at the top and bottom, low voltage path lights, a drainage system and landscape rock. We love creating beautiful projects for our customers!

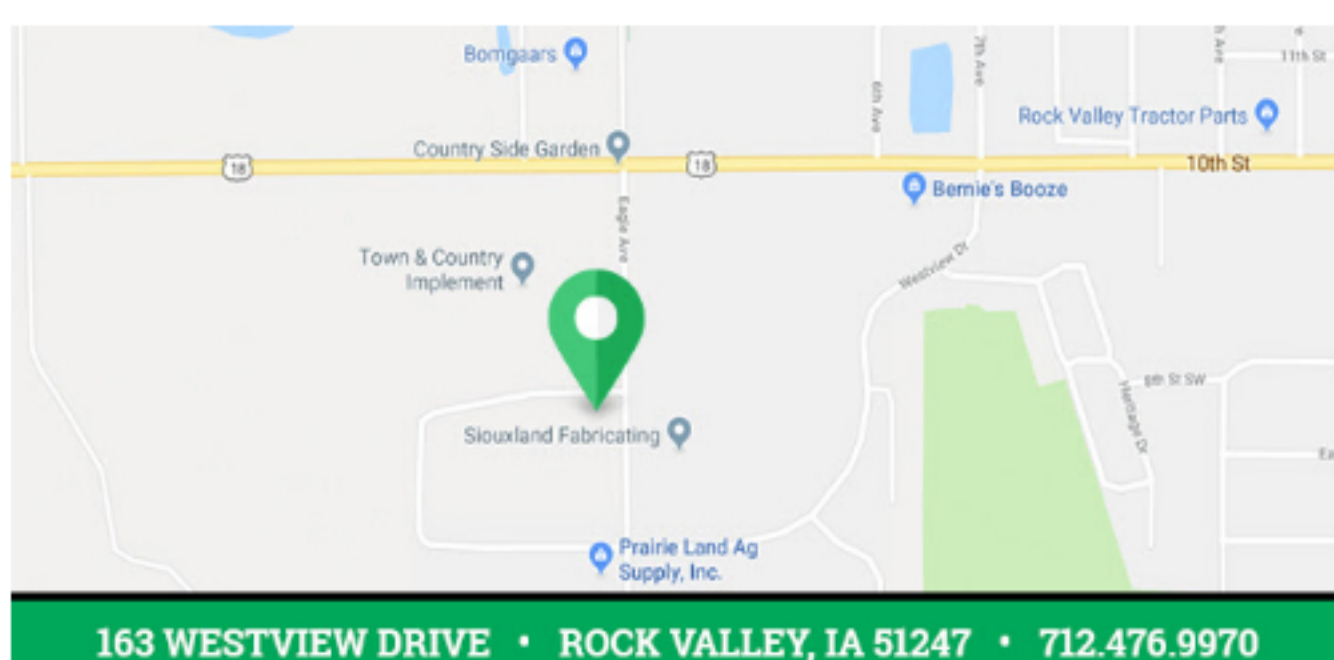

Landscaping Tip: Avoid watering your lawn in the afternoon heat. Rather, it is best to water in the early morning when the temperatures are cooler to allow the water to soak in before the high temperatures of the day have a chance to evaporate it.

It has been a hot summer! Last month, the City of Rock Valley issued lawn watering restrictions that they say are necessary due to high water demands and persistent dry conditions. Learn more about the summer lawn irrigation schedule [here](#).
