

Fall is here! What do you need help with before winter? Our team can help you finish projects and get your lawn and landscaping ready for colder weather. With a variety of professional services, we are the local experts to call in the Rock Valley area!

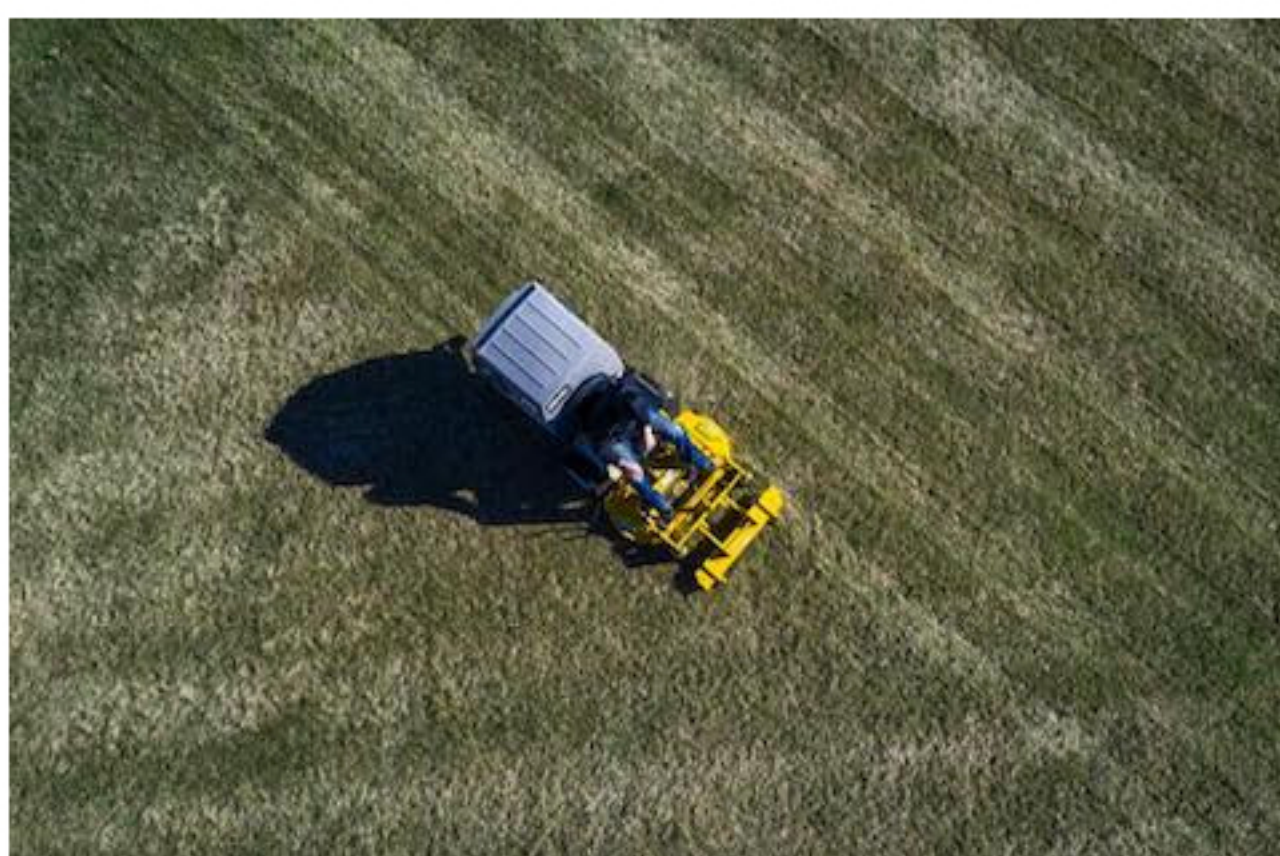

This month we are featuring our outdoor fireplace services! The nights are cooling off quicker and getting darker sooner. An outdoor fireplace is the perfect addition to your backyard! B & K designs and installs outdoor fireplaces to meet your specific needs. Not interested in a fireplace? We also sell [patio heaters](#) from Lava Heat Italia!

We love this recent project! It included bullet edgers, rock and plants around the house, a retaining wall, a column seating area and more. View additional photos on our Facebook page!

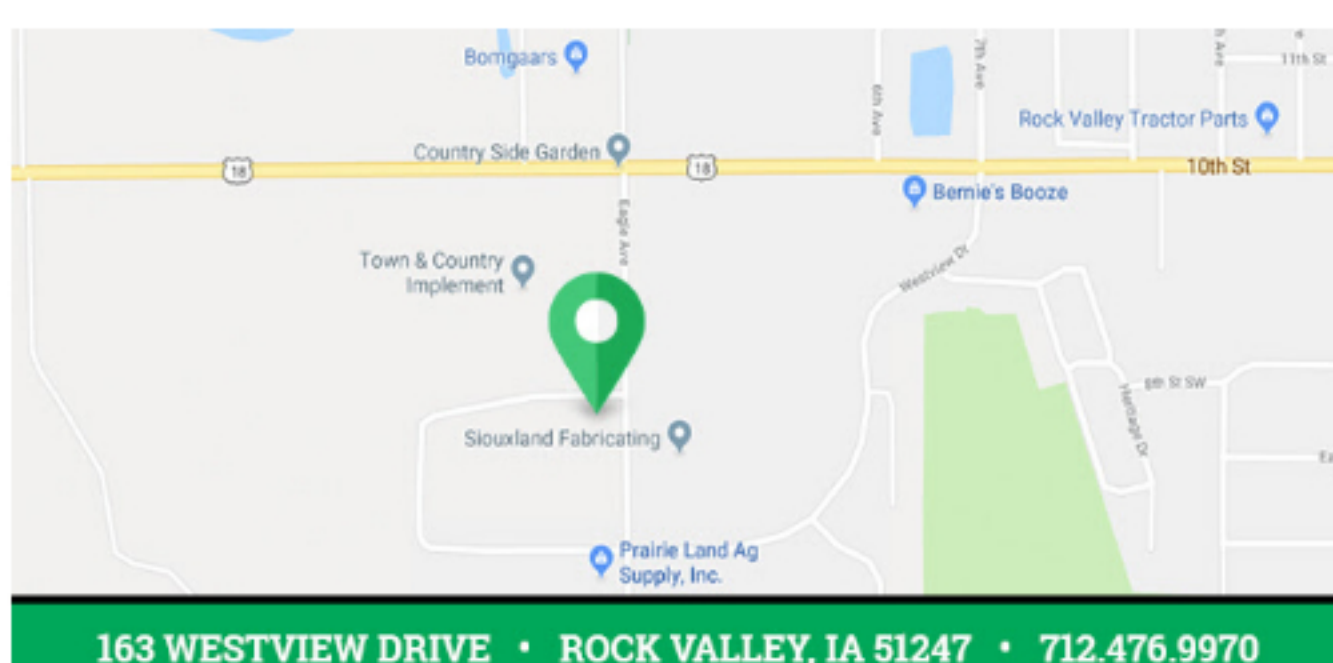

Landscaping Tip: During the fall months, keep your grass at a middle length. This prevents tall grass from getting matted and diseased in the winter and prevents short grass from being damaged by the cold temperatures.

Get on our fall cleanup list to keep your lawn and landscaping looking its best! The B & K Landscaping team provides professional bush trimming, leaf pickup, gutter cleaning and more.
